

About Elite Touch Renovations

Sydney bathroom renovations, designed and built by the Dawood family.

Who we are

Elite Touch Renovations is a Sydney based, family-owned bathroom renovation business built and run by the Dawood family. Since 2023, we have been helping homeowners transform their bathrooms through quality workmanship, thoughtful design and professional project management, delivering complete bathroom renovations across Sydney and the surrounding NSW suburbs.

We work across both residential and commercial projects, with most of our work focused on family homes throughout Sydney. Whether it's a modern bathroom renovation, a luxury ensuite, a heritage-style upgrade or a complete bathroom transformation, we tailor every project to suit our clients' needs, lifestyle and budget.

Based in Granville, NSW, we provide bathroom renovation services across all areas of Greater Sydney, including Western Sydney, the Inner West, Eastern Suburbs, North Shore, Northern Beaches, Hills District, South Sydney and surrounding suburbs. We also consider projects outside Sydney on a case by case basis.

The Dawood team

Elite Touch is a family owned and operated business built on trust, quality, and hands on involvement. Four members of the Dawood family work within the business every day, ensuring every project receives the care, attention, and personal service our clients deserve.

Omar Dawood — Licensed Builder & Civil Engineer

Omar Dawood is a licensed builder with a background in civil engineering and construction management. Throughout his career, he has worked on the delivery of residential, commercial and government maintenance projects, including projects undertaken for Homes NSW. His experience in project coordination, stakeholder management and construction delivery helps ensure every renovation is completed efficiently and to a high standard.

As the founder of Elite Touch Renovations, Omar oversees project planning, client communication and project coordination, working closely with clients, suppliers and trades from concept through to completion.

Adam — Licensed Tiler & Projects Manager

Adam is a licensed tiler and Projects Manager with more than 25 years of experience in the construction industry. He oversees site operations, project sequencing and quality control, working closely with clients and trades to ensure every renovation is completed to the highest standard.

His extensive trade knowledge, attention to detail and commitment to quality workmanship play a key role in the successful delivery of every Elite Touch project.

Farah Dawood — Architectural Designer

Farah Dawood holds a Master's degree in Architecture from the University of Technology Sydney and has gained valuable industry experience working with SJB, one of Australia's leading architectural practices. Her experience spans architecture, interior design and material selection, giving her a strong understanding of both aesthetics and functionality.

Farah combines creative design thinking with technical expertise to help clients achieve bathroom layouts and finishes that are modern, practical and tailored to their lifestyle.

Mohammed Dawood – Assistant Project Manager

Mohammed Dawood holds a Graduate Certificate in Construction Project Management and supports the delivery of projects across scheduling, site coordination and client communication. Working closely alongside Omar and Adam, he helps ensure renovations remain organised, on schedule and completed to a high standard.

His attention to detail, strong communication skills and commitment to customer service contribute to a smooth renovation experience for every client.

Our story

[CLIENT TO PROVIDE: 3–4 sentence family story. Where did Elite Touch start? Who founded it and why? What was the first project? Plain language and honesty here will outperform polished marketing copy. This is the single most distinctive thing about the business and should be written your team's own voice.]

Elite Touch Renovations was founded in 2022 by the Dawood family, bringing together decades of construction experience, architectural expertise and project management knowledge under one roof. At the heart of the business is Adam, whose 25+ years in the construction industry and commitment to quality workmanship inspired the next generation to pursue careers in the built environment.

Working alongside their father, Omar, Farah and Mohammed combined their backgrounds in construction, architecture and project management to build a family-run business founded on trust, professionalism and attention to detail. Today, Elite Touch Renovations continues to deliver high-quality bathroom renovations across Sydney while staying true to the family values that have guided the business from day one.

What we build

We focus on bathrooms. That focus is deliberate. Bathrooms are some of the most technically demanding rooms in any home — waterproofing, electrical zoning, plumbing, tiling and joinery all converge in a small footprint — and doing them well requires the kind of trade discipline that gets diluted when a single crew is also taking on kitchens, decks and extensions in the same week.

A typical Elite Touch project is one of the following:

- A full bathroom renovation, from strip-out to handover
- An ensuite renovation
- A combined bathroom and ensuite program run in parallel
- A heritage-sensitive bathroom build
- A premium bathroom in natural stone, marble, or large-format porcelain
- A well-finished bathroom refresh delivered within one of our fixed packages

How we work

Every Elite Touch project follows the same four stages.

1. Free on-site consultation and quote

We visit your home, take measurements, talk through what you're hoping for, and provide a fixed-scope written quote — not an estimate that drifts. Inclusions, exclusions and assumptions are set out clearly, so there are no surprises later.

2. Design and product selection

Farah works with you on layout and finishes. You can source products yourself or use our trusted supplier network for vanities, tiles, fixtures and accessories. Either way, you choose the finishes; we tell you the implications for the build before you commit.

3. Build and progress payments

Once contracted, we book a start date and work to a progressive payment schedule. You are never asked for money ahead of agreed milestones. Your project manager stays in contact throughout, and all wet-area trades work to the current Australian Standards — including AS 3740-2021 (waterproofing), AS/NZS 3500 (plumbing), AS/NZS 3000 (electrical wiring rules), AS 1288 and AS/NZS 2208 (safety glass), and AS 4586 (slip resistance).

4. Final inspection and handover

Before the final payment, we walk through the finished bathroom with you and resolve any defects on the spot. You receive your waterproofing certificate of compliance, plumbing and electrical certificates of compliance, and the warranty documentation for fixtures and joinery.

Credentials and protections

Bathroom renovation is regulated work. Every job is delivered under the licences, insurances and statutory protections required by NSW law and the National Construction Code.

- NSW Builder Licence: 475204C – Omar Dawood
- ABN: 92 679 016 721

- ACN: 679 016 721
- Public Liability Insurance: \$20 million cover
- Workers' Compensation Insurance: Allianz
- Home Building Compensation Cover (HBCF): Certificates are issued for all applicable residential projects in accordance with NSW legislative requirements.
- Industry Memberships: Housing Industry Association (HIA)
- We work with a trusted network of qualified and licensed tradespeople, including demolition specialists, plumbers, electricians, waterproofers, tilers, carpenters, painters and glaziers. All works are carried out in accordance with relevant Australian Standards, with compliance certificates provided where required.

Why this level of detail matters

A bathroom renovation is one of the most regulated rooms in a home and one of the more expensive renovations a household typically commits to.

Cutting corners on waterproofing or wet-area electrical work creates problems that stay invisible until they are very expensive like leaks behind walls, mould inside cavities, failed insurance claims, electric-shock risk in wet zones.

We do this work for a living, so the standards work is not a separate task at the end of the job, it is how every job is built from day one.

If you want to see what that looks like in practice, our **see our** recent projects in detail, including the standards each one was built to.

Our commitments

- We deliver most bathroom renovations in two to four weeks on site, with a written program shared with you before work starts.
- We provide written, fixed-scope quotes — not estimates.
- We do not ask for payments ahead of agreed milestones.
- We respond to defects raised during the statutory defects period under the Home Building Act 1989 at no charge.
- We plant one tree per completed project through Greenfleet, supporting the restoration of native Australian forests and helping create a more sustainable future.

Reviews and reputation

We are proud of our reputation across independent review platforms. You can read first-hand reviews of our work here:

- Google Business Profile: <https://share.google/PLJDhhWBCrWAq6GVH> — 5.0 stars across 17 Google reviews.
- Instagram: <https://www.instagram.com/elitetouchrenovations>

- Facebook: <https://www.facebook.com/100068012162691>

Where we display reviews on this site, each one links back to its original source on the platform it was left on. We do not edit or curate negative reviews out.

Service area

We provide bathroom renovation services across Greater Sydney, including the Eastern Suburbs, North Shore, Northern Beaches, Hills District, Inner West, Canada Bay, Ryde, Hunters Hill, Sutherland Shire, Parramatta and surrounding areas. We also consider projects outside Sydney on a case-by-case basis.
